Department of Transportation and Public Works (DTPW)

Improvements to NW 97th Avenue from NW 58th Street to NW 70th Street

Project No. - 20200117

Project Description:

DTPW is planning to reconstruct NW 97th Avenue from the north side of the intersection at NW 58th Street to NW 70th Street. The project will replace the existing three-lane roadway with a new five-lane roadway that will connect to the existing five-lane section of NW 97th Avenue north of NW 70th Street. Also, the project will address the vehicular traffic demands of the corridor and provide new facilities for bicyclists and pedestrians. The objective of the project is to provide safety and operational improvements to help traffic flow smoothly along NW 97th Avenue.

Construction Schedule:

Construction is scheduled to begin October 2021 and is anticipated to be completed June 2023.

**The start and end dates of this work may be significantly impacted by labor and material shortages associated with the ongoing COVID-19 pandemic, as well as by weather events characteristic of the hurricane season.*

Methodology and Efforts:

All efforts are being made to minimize the impact from the construction activities to area residents, schools, businesses, and motorists. Access to properties and traffic throughput is being maintained at all times. Affected roadways will be restored to full operating condition immediately upon completion of the construction activities. The restoration activities will address any areas impacted by the project, such as grassy areas, sidewalks and other items affected by the construction.

If you have any questions or require additional information, please contact the Department of Transportation and Public Works at 786-469-5365 or by email at DTPWOutreach@miamidade.gov
